## **Objective:**

Experienced and dedicated Flutter developer at Infosys and looking forward to work for an organization which provides me opportunity to improve my skill and knowledge to growth along with the organization objective.

## **Education:**

**Bachelor of Science,**  
Mangalore University,  
Graduated: September 2020

## **Experience:**

### **Systems Engineer**

Infosys Limited,  
April 2021 – Present

- **Mobile Application Development:**
  - Developed robust mobile applications using Flutter and Dart with responsive UI designs.
  - Created RESTful APIs using Flask and FastAPI and integrated with mobile and web applications.
  - Developed a range of features including authentication, real-time data updates etc.
  - Worked on state management solutions such as Provider and Bloc to handle application effectively.
- **Collaboration & Documentation:**
  - Worked closely with the clients and cross-functional teams for the better understanding of the requirement
  - Worked on Code Review, Documentation and confluence creation for the end users
- **RPA:**
  - Developed and deployed RPA solutions to automate the repetitive tasks.
  - Used Automation Anywhere tool to create bots that improved efficiency and reduced errors.

## **SKILLS:**

- **Programing Languages:** Dart, Python, JavaScript, SQL
- **Frontend** : Flutter, HTML, CSS
- **Backend** : Python, Django, FastAPI, Rest Api, Provider, Bloc, Git, GitHub
- **Database** : SQL, RDBMS(MySQL), Firebase
- **Soft Skills** : Problem-Solving, Teamwork, Time Management
- **Languages** : English, Kannada

## **Projects:**

- **Application to fill the Time Sheet & View Employee Directory**
  - Developed a timesheet application using Flutter.
  - Integrated with RESTful APIs to connect with backend server for data storage & retrieval
  - Used firebase for user authentication
  - Integrated features like enter the time sheet for employee, approve or reject timesheets for manager, holiday calendar, employee details page etc.
- **Chat Application for Production Engineers**
  - Developed a chat application using Flutter to communicate among the production engineers.
  - Implemented authentication & real-time messaging.
- **Tracker Application**
  - Mobile application to track all the assigned tickets and ticket details.
  - (Replicated from a web application)

## **Personal Projects:**

- **Career website for job Applications**
  - Developed a career website using Django for backend and html, CSS and JavaScript for frontend.
  - Implemented the features for job seekers to create profiles, upload resumes, apply for jobs and track the job application status etc.
  - Ensured secure user authentication and data handling
